Guidelines for filling up APAR

1. Numerical Gradings are to be awarded by the Reporting and Reviewing Authorities for the quality of work output, personal attributes and functional competence of the officer reported upon. These should be on a scale of 1 – 10. Where 1 refers to the lowest and 10 the highest. The following will be kept in mind while awarding numerical gradings.
 - (a) The columns in APAR should be filled with due care and attention and after devoting adequate time.
 - (b) It is expected that any grading of 1 or 2 (Against work output of attributes or overall grade) would be adequately justified by way of specific failure and similarly any grade of 9 or 10 would be justified with respect to specific accomplishments. Grades of 1 – 2 or 9 – 10 are expected to be rare occurrences and hence the need to justify them. In awarding a numerical grade the reporting and reviewing authorities should rate the officer against a larger population of his/her peers that may be currently working under them.
 - (c) APARs graded between 8 and 10 will be rated as “Outstanding” and will be given a score of 9 for the purpose of calculating average scores for empanelment/promotion.
 - (d) APARs graded between 6 and short of 8 will be rated as “Very Good” and will be given a score of 7.
 - (e) APARs graded between 4 and short of 6 will be rated as “Good” and given a score of 5.
 - (f) APARs graded below 4 will be given a score of zero.
2. Reviewing Officer may indicate specifically the differences, if any, with the assessment made by the Reporting Officer and the reasons therefor in the relevant Section of APAR.
3. The overall numerical grade of the APAR on a score of 1-10 will be based on 40% weightage on assessment of work output, and 30% for assessment of personal attributes and 30% for functional competency. It will be based on addition of the mean value of each group of indicators in proportion to the weightage assigned.
